

MD SABBIR KHAN ONI

+8801400557770 | mdsabbirkhanoni@gmail.com | Dhaka, Bangladesh | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: C++, Java, C#, JavaScript, TypeScript, SQL, PL/SQL.

Frameworks and Database Technologies: Node.js, Express.js, NestJS, React.js, Next.js, .NET Framework, ASP.NET MVC, ASP.NET Core Web API, TypeORM, Mongoose, MySQL, MSSQL Server, PostgreSQL, MongoDB, Oracle.

Other Skills: AI integrations, OOP, Git/GitHub (**700+ contributions**), Docker, Postman, Team Collaboration.

EXPERIENCE

Techdojo Limited

Aug 2026 - Present

Software Engineer Intern | *React.js, React Native, Next.js, Node.js, Express.js, MongoDB*

[Production Link](#)

- Developed a full-stack **3D web application** using React.js, Three.js, Node.js, Express.js, and MongoDB implementing **10+ features** as part of a Software Engineering technical assessment.
- Extended the required scope with **SSLCommerz** payment integration, including IPN validation, and implemented **5+ security enhancements** for secure transactions and production readiness.

Project based Experience

WiFi and Internet Bill Management System

May 2023 - Dec 2023

Java, Swing Toolkit, JDBC, MySQL

[GitHub Link](#)

- Constructed a comprehensive billing system, handling **1,500+** customer records and automating billing management.
- Reduced manual calculation effort by approximately **70%** through automated billing and payment processing.

PROJECTS

PI-Mart - An E-commerce System with Stripe and SSLCommerz Payment Gateway

Apr 2025 - Sep 2025

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Redux.js, Stripe, SSLCommerz [GitHub Link](#) | [Production Link](#)

- Designed a robust **RESTful API** architecture, accelerating **JWT** token validation with token refresh mechanisms.
- Optimized queries and API **response time to less than 150 ms**, reducing server load by **35% across 10+ collections**.
- Engineered Stripe **webhook** processing with raw body parsing and event validation, enabled **SSLCommerz** for local payment processing and reduced order synchronization latency by **40% from 300 ms to less than 180 ms**.

Job Board Application - Enterprise Recruitment Management Platform

Nov 2025 - Jan 2026

Next.js, NestJS, TypeScript, TypeORM, PostgreSQL, Pusher.js, Axios, JWT

[GitHub Link](#) | [Production Link](#)

- Architected **JWT-based authentication** with **three user roles**, secured via **httpOnly cookies** and **role-based access control (RBAC)** to ensure protected access and data security.
- Improved performance using **hybrid rendering** (SSR, CSR, SSG) to enhance initial load speed and user experience.
- Strengthened efficiency by optimizing **database queries** and applying caching strategies, reducing API response time.

AI-Bot - An Embedded SaaS 24/7 Human-Like AI Chatbot.

Dec 2025 - Mar 2026

Next.js, Tailwind CSS, TypeScript, OpenAI API, Axios, Neon

[GitHub Link](#) | [Production Link](#)

- Built a **real-time embedded platform** with an integrated **AI assistant** for text generation and recommendations.
- Established a **microservice-based architecture** by using **Scalekit** for secure authentication and enabled **prompt engineering** and **AI agent services** within a scalable, high-availability system.
- Implemented chat synchronization across multiple users and AI responses with **less than 150 ms latency**.

PROGRAMMING ACHIEVEMENTS

Programming Achievements (650+ problems solved across various platforms):

- Leetcode:** Rating **1300+** | **100+** Problems Solved.
- Codeforces:** **250+** Questions Completed.
- CodeChef:** **Global Rank 1st** on DSA Challenge 06 | **100+** Solutions Submitted.
- Code360:** **100+** Practice Exercises.
- GeeksforGeeks:** **50+** Attempted.

EDUCATION

American International University-Bangladesh

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering (Current CGPA: 3.62 / 4.0)

Jan 2022 - Aug 2026
